SCOperationType

name: str

GQLSchema

mutationType: SCOperationType
queryType: SCOperationType
subscriptionType: SCOperationType
types: [SCType]
directives: [SCDirective]

SCDirective

name: str
description: str
locations: [str]
args: [SCArg]

Comprises all kinds
(interfaces too)

SCEnumValue

name: str
description: str
isDeprecated: bool

SCType

kind: str
name: str
description: str
fields: [SCField]
inputFields: [SCInputField]
enumValues: [SCEnumValue]
interfaces: [SCInterface]
ofType: [SCType]

SCField

name: str
description: str
type: SCFieldType
args: [SCArg]
isDeprecated: bool

SCFieldType

kind: <TypeKind>
ofType: SCOfType

SCInterface

kind: <TypeKind>
name: str
ofType: SCOfType

SCArg

name: str
description: str
type: SCArgType

SCArgType

kind: <TypeKind>
name: str
ofType: SCOfType

SCInputField

name: str
description: str
type: SCArgType
defaultValue: str

SCOfType

kind: str
name: str
ofType: SCOfType
